CONTENTS

VOLUME 3, ISSUE Nos 1–4

Issue No. 1, August

REVIEW ARTICLES

Associations Between Blood Groups and Diseases *A. E. Mourant* . . . 1

The Fragile(X): A Marker for the Martin-Bell Syndrome *P. A. Jacobs and S. L. Sherman* 9

RESEARCH PAPERS

Lysosomal Enzyme Activities in Human Haemopoietic Cell Lines of Malignant and Non-malignant Origins: Consistent Markers of Malignancy and Abnormalities Associated with Immortalisation *S. E. Moss, P. A. Elder and G. T. N. Besley* 27

Association of HLA-DR5 with the Occurrence of Hodgkin's Disease in a New York City Population *P. LoGalbo, A. Nunez-Roldan, J. Cuttner and R. Winchester* 39

Group-specific Component Polymorphism in a Peculiar Community in Brittany, the Bigoudens *P. Youinou, J. Seger, D. Salmon, G. Le Menn, J. Ruffié and C. Salmon* 49

ABO, Lewis and Secretor Status and Relative Incidence of Air Flow Obstruction *S. L. Horne, D. W. Cockcroft, A. Lovegrove and J. A. Dosman* 55

SHORT COMMUNICATION

HLA and Susceptibility to DIDMOAD Syndrome. An Hereditary Form of Juvenile Diabetes Mellitus *P. Garcia-Luna, R. Astorga, A. Leal, C. Santos, D. Acosta, I. Wichmann and A. Nunez-Roldan* 63

Issue No. 2, November

REVIEW ARTICLE

Markers for Malignant Melanoma *A. J. Cochran.* 65

RESEARCH PAPERS

Diabetic Pregnancy: Fetal Development and Maternal Phosphoglucomutase Phenotype *E. Bottini, G. Gerlini, F. Fallucca, N. Lucarini, E. Bonci, S. Arachi and F. Gloria-Bottini* 83

Immunoglobulin G Heavy-chain (Gm) Allotypes and the Immune Response to Types I and II Collagen in Rheumatoid Arthritis *D. H. Collier, S. S. Kerwar, R. Brown, J. D. Stobo and M. S. Schanfield* . . . 91

Clinical and Biochemical Studies on Anti-kinetochore Antibody in Patients with Rheumatic Diseases: A Diagnostic Marker for CREST *G. Spowart, P. Forster, N. Dunn and B. B. Cohen* 103

The Distribution of HLA Antigens in the Saudi Population *W. Leheny, A. Heads, A. Al-Hilali and R. Bacchus* 113

HLA Antigen Frequencies of HLA and Gm Haplotype Segregation in Filipino Leprosy Patients in Hawaii *M. S. Pollack, C. Ching, J. Pandey and E. Reichert* 119

Issues Nos. 3 and 4, December

Aids and HTLV-3 Infection—A Personal View *G. E. D. Urquhart* 131

REVIEW ARTICLE

Biochemical and Genetic Aspects of Human Serum α_1 Proteinase Inhibitor Protein *M. I. Kamboh* 135

HYPOTHESIS

Ia Epitopes and Their Relationship to Disease Susceptibility Genes *J. Silver and S. M. Goyert* 155

RESEARCH PAPERS

Translocations Involving Chromosomes 2p and 22q in Ataxia-Telangiectasia *R. A. Gatti, A. Aurias, C. Griscelli and R. S. Sparkes* 169

Serum Beta$_2$ Microglobulin and Lysozyme Concentrations in 101 Cases of Untreated Acute Myeloid Leukaemia *D. R. Norfolk, M. Davy, M. A. Forbes and C. S. Scott* 177

Heterogeneity of Expression of HLA Class II Antigens DR, DQ and DP on the Normal Human Renal Endothelium *P. R. Evans, L. P. Trickett, A. G. MacIver and J. L. Smith* 185

A Series of Human × Mouse Hybrid T Cell Lines, From A Single Fusion, Containing a Translocated Human X: Mouse Chromosome *G. M. Taylor, H. Morten, L. Durrant, R. Elles and R. Harris* 199

SHORT COMMUNICATION

Testicular Feminization: Diagnosis and Search For Closely Linked Restriction Fragment Length Polymorphism *P. Wieacker, M. Breckwold and A. Gal* 213
